

Breed Standards for the Ambullneo Mastiff

- General Appearance:** The Ambullneo Mastiff is a highly intelligent, unstoppable guardian. This 90's version of the Bullmastiff comes from a breeding program started in the early 80's comprised of breeding an English Mastiff male to a Neapolitan female where two pups from this litter were then bred to a Game Bred Pitbull. These 50/50 crosses were bred to a Bullmastiff. The result was a 45% Bulldog, 55% Mastiff cross. An American Bulldog/Pitbull was bred to a Bullmastiff producing a 70% Bulldog, 30% Mastiff cross. This was bred to the 45% Bulldog, 55% Mastiff cross to produce a 57.5% Bulldog, 42.5% Mastiff.
- Size:** Weight: Male: 135-155 lbs, Female: 115-135 lbs
- Color:** Colors vary from reverse gold brindle to solid black
- Eyes:** Eye color ranges from gold to dark brown.
- Temperament:** The Ambullneo Mastiff is devoted to pleasing and protecting their family, property and possessions. They are gentle with children and pets and enjoy their company.
