

Breed Standards for the Spanish Mastiff

General Appearance:	The breed is longer than it is high
Head:	The big strong head is shaped like a truncated pyramid, broad at the base, and the medium sized; Triangular ears hang close to the head when at rest but are partially pricked at the top when attentive. The ears are not cropped.
Color:	Solid colors are appreciated most, but combined colors, brindles or parti-colors are possible
Coat:	Thick and dense
Size:	Height: male: 30.5; female: 28.5" Weight: 121-154 lb
Temperament:	An obedient guard, sure of itself, aware of its own enormous power, and very determined when facing harmful animals or strangers
